Exchange Student Guide

Instructions for exchange students are available at our guide.

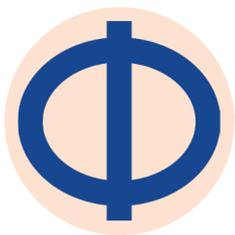

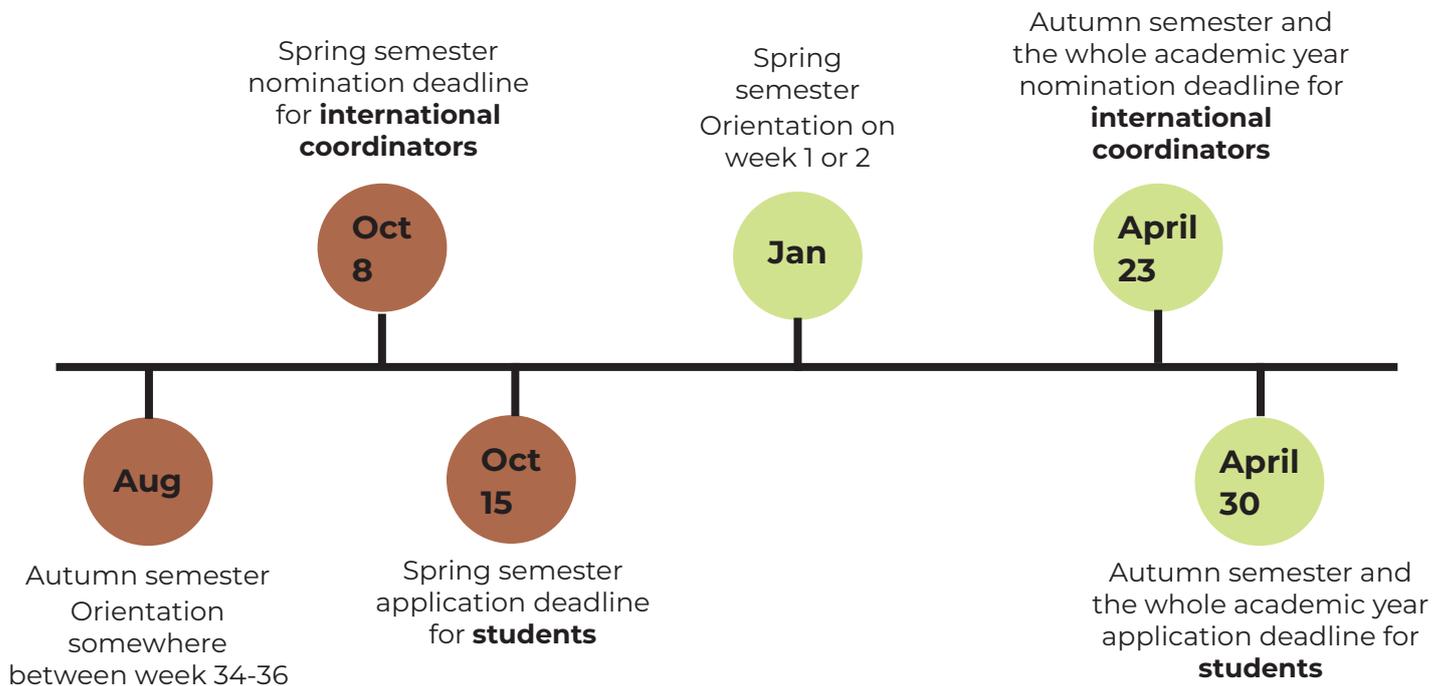

Academic Calendar

Note! Nominations for short mobility periods through shortmobility@lab.fi (not through Mobility-Online)

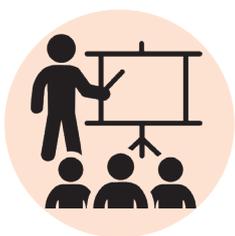

Autumn semester
August - December

Spring semester
January - May

Nomination and application

Nominations are done by the sending institution via LAB Mobility-Online. Instructions for nominating are sent to partner institutions. Applications are filled through online application system LAB Mobility-Online. More information about applying and application process at our info page for students eLAB.

Orientation

Orientation Programme for new incoming exchange students is arranged twice a year, at the beginning of each semester. Orientation is compulsory for all exchange students.

Studies

The independent nature of UAS studies in Finland presupposes that students show initiative and take responsibility for the planning of their studies and for keeping to their own schedules. LAB being a University of Applied Sciences also means that the approach is very practical, including less theory and more projects. The study methods at LAB support self-guided development, which creates a basis for comprehensive learning: lectures, teamwork, projects, reading assignments and essays. In addition to face-to-face lectures, LAB also offers many online courses in **Moodle** learning platform.

Exams

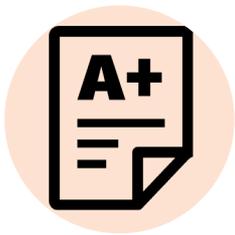

Please note that there is **no specific exam period** at the end of the term; exams are held throughout the academic year.

Language requirement

English language requirement minimum level is B2.

See the approved language tests and specific requirements [on eLAB](#).

Grading

Finnish higher education institutions use numeric grading scales. At LAB, the scale is from 5 (excellent) to 1 (sufficient). Every course and examination at LAB is recorded in the student's personal transcript. Below is a comparison table with other ECTS grading scale.

LAB grading scale

- 5 Excellent
- 4 Very good
- 3 Good
- 2 Satisfactory
- 1 Sufficient
- 0 Fail

European grade definition

(not official equivalents)

- A
- B
- C
- D
- E

Please note that some courses are without grading on a **pass/fail** basis. In this case the mark 'pass' appears on the transcript.

ECTS

Finnish higher education institutions use ECTS credit system. The estimated workload for a full time student in one **academic year is 60 ECTS** credits, meaning 30 ECTS credits per semester.

Please note that a credit does not refer to the duration of a course, but to the estimated amount of work required.

One credit refers to approximately **27 hours of work** by the student. Credits are used to define the extent of a given course. Lectures, projects, assignments and other forms of studies are all taken into consideration when the number of credits for each course is calculated.

Accommodation

L
A
H
T
I

LAB cooperates with the local student housing organisation Lahden Asunnot Oy (c/o Lahden Talot Oy) which organizes the housing arrangements **for all incoming exchange students who apply on time**. Further and up-to-date information available [here](#). Student apartments are at different locations in Lahti. **Apartments are usually shared by 2-3 persons.**

Kuukkeli-Kodit is another housing provider. Further information about it and other accommodation options is available [here](#).

In Lappeenranta students can apply for student accommodation in the Lappeenranta Student Housing Foundation LOAS at www.loas.fi/en. **Please apply for the accommodation directly from LOAS and by the given date.** Students might need to apply for housing even if they have not yet received the acceptance letter from LAB University of Applied Sciences. LOAS will send only one housing offer per applicant. If a student rejects the offer, it might be very difficult to find another accommodation.

Student apartments are at different locations in Lappeenranta. **Apartments are usually shared by 2-3 persons.**

More information [here](#).

Finances

Please note:

This estimate does not include social activities, travel or clothing. It has been estimated that an average Finnish student spends 700€ per month.

Approximate expenses per month

Accommodation	300€ - 500€
Lunch at student canteens	50€ - 80€
Self catering	90€ - 120€
Local transportation	50€ - 60€
Other expenses	100€ - 150€
Total	590€ - 910€

Visas and permits

- 1. Citizens of the Nordic countries** need not apply for a residence permit but have to register at a Digital and Population Data Services Agency if they stay in Finland longer than six months.
- 2. Citizens of other EEA countries** need to register their right of residence in Finland if they plan to stay in Finland for more than 3 months non-stop. They can do the registration at the Finnish Immigration Service within 90 days of their arrival to Finland. Please see information on http://www.migri.fi/eu_registration
- 3. Persons from outside the Nordic and the EEA countries** who intend to stay in Finland for more than 3 months need a residence permit which should be acquired before arrival in Finland at the nearest Finnish embassy or consulate. Please see the Finnish Immigration Flowchart: Residence Permit for Studies at www.migri.fi.

LAB only provides the above information as general guidance regarding residence permits and visa issues and is in no way responsible for the official rules and regulations regarding their distribution. As immigration policy is subject to change, all international applicants should consult the [Finnish Immigration Service](http://www.migri.fi) for up-to-date information regarding residence permits.

More information can be found at online exchange student guide.

Finnish Personal Identity Code (PIC)

All international students need to apply Finnish **Personal Identity Code (PIC)** and this way registrate into the Finnish Population Information System. Students entering Finland with a residence permit can apply Finnish PIC within the residence permit application. Finnish PIC can be applied from Digital and Population Data Services Agency once arrival. Instructions are given within the Orientation Programme.

LAB provides courses in intercultural communication and interdisciplinary studies across our key fields of design, environmental engineering, and welfare. We also offer courses in Finnish language and culture

Insurance

All students are responsible for their own insurance arrangements and we strongly recommend taking a comprehensive insurance for the stay in Finland. Health insurance is a requirement for obtaining a residence permit for studies in Finland.

Accessibility and individual study arrangements

LAB University of Applied Sciences is committed to providing equal educational opportunity for students and staff with disabilities. Practical procedures will be discussed case by case. Please be in touch as soon as possible for practical arrangements.
