

Global Citizenship and Sustainable Innovations, 3 ECTS

Intensive course: 18. - 22.1.2027 in Breda, the Netherlands

- This course will be carried out in co-operation with partners from Avans (NL) and htw Saar (GER).
- Virtual section (4 x 1h sessions) in Nov-Dec + Physical mobility in Breda
- Teaching methods: lectures, groupwork in multicultural teams, cultural activities to experience the Netherlands, individual reflective essay
- Grading: pass/fail
- Students will get an Erasmus+ grant of about 862€ from LAB.

- Learning objectives:
 - to learn about global citizenship and its role in sustainable development goals
 - to develop student's intercultural competence
 - to learn about how companies can make a difference through sustainability
 - to learn to work together on a real and international company case in a multicultural team
- Procedure: write a short application by email by 12th October to jaana.hakli@lab.fi to describe your motivation to join the course and how you will contribute to the group by participating in this intensive programme. About 6 LAB students will be selected. 2nd and 3rd-year students are preferred in the selection process.
